Where to Buy Native Plants

Ask your local nursery if they have, or can order, specific native plant species for you. If not, some great sources are:

- [Bowman's Hill Native Plant Nursery](#)
- [Native Plant Nurseries](#) — Compiled by the Native Plant Society of New Jersey
- [Prairie Nursery](#) — Search the online seed catalogue or the plant catalogue. Also offers categories to browse, and other excellent info.
- [Toadshade Wildflower Farm](#) — Seeds and/or plants. Mail order, or order ahead for you to go and pick up plants (saves mailing costs). Online catalogue: choose a specific list such as 'sunny and wet' or 'deer resistant' to narrow your search. Includes good information on all the species offered.
- [Wild Ridge Plants](#) — Wholesale and retail. Mail order or visit on specific 'open house' dates. Choose a category (sunny/wet, etc.). Good info under each species description

Pollinators

- [New Jersey Wildlife: N.J.'s native bees exclude the state insect, the honey bee](#)
- [North American Butterfly Association](#). Click on a species name for more information
- [Tips on starting and maintaining your pollinator garden](#)

Invasive Plants

- [Invasive Plant Atlas of the United States](#)
